

state of society and the world. It is a tool to seek information and bring in the practice or opinion to make decisions, curiosity and attention. The learning and self-learning as well as the need to integrate and social interaction. It represents the coexistence with others. Talking about topics that are of interest to specific groups. By expressing it with others. And the feeling of ownership. Used in conversation And social interaction. (Sirichai sirikaya BE, 2531)

#### XVI. SUGGESTION

1. The nature of the questionnaire on religious issues in the Muslim television media. Of the sample. Most samples Watch a list of specific issues or questions. Come to the top Therefore, the channel may also need to survey the needs of the target audience to achieve the satisfaction of viewing the list as much as possible.

2. Satisfaction of the sample of the questionnaires on religious issues in the 6 television media. The content of the questionnaire was quite satisfactory. Current events , Speakers are reliable , Broadcast period , The answer is compact, easy to understand, not to be interpreted. These issues should improve the station. Because of this type of transaction. People are hoping for more knowledge. Key issues I need to fix it hastily. The content is credible, which is directly related to the lecturer, since the lecturer must have expertise in Islamic law, Tawheed principles, and Uuduldadi. This is because the human life is related to these three disciplines. Roddenberry each other can be adjusted easily. The level of satisfaction is good. The knowledge that can be found to further increase the hole. And it can be implemented without complaint. The issue is to keep it. And adjust to the agenda and the occasion to make new changes occur.
