G. Rosslee was born in Rustenburg, South Africa on the 12th of June 1995. Rosslee is a final year chemical engineering student of the 2018 class. Rosslee studied at the North West University in Potchefstroom.

He did vacation work as an operator assistant on a sewage treatment plant for 2 months. During his time at the sewage treatment plant he learned the process and plant operations. He completed a project on flocculation optimization on a dissolved air floatation
